

NEXT - Central Ordering

WHAT IS CENTRAL ORDERING?

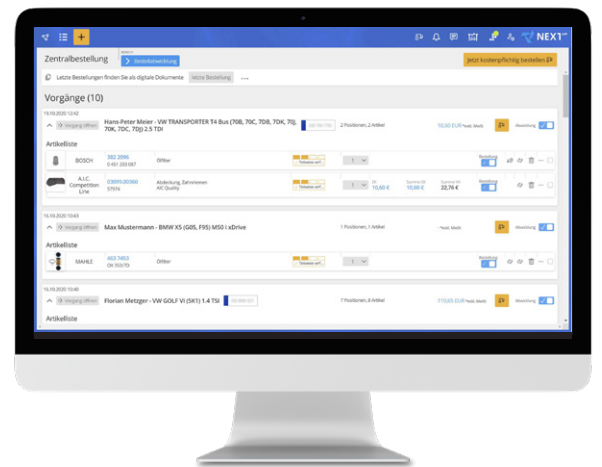

„Central Ordering“ is a module within the **TOPMOTIVE NEXT catalog**. It supports the user in the uncomplicated ordering process. Previously, ordering was only possible within a single process. Thanks to the centralized function, the user can now order several orders from different processes simultaneously with just one click.

WHAT FUNCTIONS DOES CENTRAL ORDERING PROVIDE?

- + Compact overview to view and handle all orderable processes and to switch between the respective processes
- + Easy access to central ordering via regular navigation
- + Access to last orders
- + Choice between central order (several processes) and single orders (single process) possible
- + Order of several processes simultaneously:
 - + All articles (including article details) in the shopping cart that are activated via the „processing“ function are automatically transferred to the order. If an article is not „active“, it will not be ordered
 - + It is possible to replace already added items with alternative articles and adjust the quantities of the individual articles
 - + Order confirmation and direct feedback function from the wholesaler after order initiation

WHAT BENEFITS DOES THE CENTRAL ORDERING OFFER?

- + Simplification of the order process
- + Enormous time saving
- + A relief for both the workshop and the wholesaler
